

**2017 Jackson Hole One Fly
Stream Habitat Improvement Program Proposal Application**

Application Deadline: Friday February 24, 2017, 5 pm (MST)

Submit proposals by email to: grants@jacksonholeonefly.com

Questions? Contact Krystyna Wolniakowski at krystyna@jacksonholeonefly.com

Title of Project:

Total Amount Requested:

Matching Funds Proposed (cash and/or inkind):

Proposed Grant Period (start date and end date):

Primary Project Contact Name, Title, Email and Tel:

Organization Contact Information, Website, and Tax ID Number:

Project Description:

Project Abstract (4-5 sentences):

Project Location (include site area description and maps):

Permit Description (if applicable):

Permit Status:

Permit Contact Person:

Permits/Approval Submittal-Approval Date:

Project Budget and Matching Contributions: Please include a table that describes the costs of the project, and the request from Jackson Hole One Fly for salaries, benefits, supplies (under \$5000), equipment (over \$5000), travel, and "other" expenses. In addition, please indicate sources and amounts of match that will be applied for, pending or already received for the project. Match should be at least 1:1, but a larger match makes the application more competitive.

Project Need: Describe the conservation need or problem the proposed project will address; the native Snake River fine-spotted cutthroat trout and/or Yellowstone cutthroat trout are our primary focus in the South Fork and mainstem Snake River watersheds. Discuss how the project addresses a priority conservation action identified in the Request for Proposals, state or federal native trout conservation or recovery plans, and/or by the Western Native Trout Initiative Fish Habitat Partnership.

Project Objectives: Provide information that outlines what you want to achieve through the implementation of the project.

Activities Proposed: Describe the activities that will be conducted to meet the objectives.

Methodology: Describe how each activity will be implemented and the anticipated timeline.

Short Term and Long Term Measureable Conservation Outcomes: Describe how you will quantify the results of the grant project

Evaluation and Monitoring: Describe how will you evaluate and monitor the results of your project.

Proposed Conservation Partnerships to implement the project:

Example table:

<u>Partner</u>	<u>Role</u>
U.S. Forest Service	Barrier design and conceptual modeling

Dissemination: How will the results of the project be communicated to the community and media?

Community Involvement / Stewardship: Describe your community partners and their role in the project.

Project Team and Qualifications: Describe the staff and qualifications, and if applicable, the types of consultants that will be part of the project team.

Other information (optional photos or other information not requested above):

History of any past Jackson Hole One Fly grants: Please list any projects in progress or completed that were funded in part by the One Fly.

Technical Reviews: Please attach 2 letters from technical reviewers on their letterhead. At least one of the letters needs to be from a federal and/or state agency biologist such as National Park Service, Bureau of Land Management, USDA Forest Service, U.S. Fish and Wildlife Service, and/ or Wyoming, Montana and Idaho fish and wildlife agencies. *Please make sure the review letters are emailed to Krystyna by March 10, 2017.*
